GINGER COVE

Update #2

The Maryland Critical Area Commission reviewed Anne Arundel County's Bill and Growth Allocation submittal (AA County Bill #43-16; Growth Allocation 2016-0002-G) at its meeting on September 7, 2016. Ginger Cove is pleased to report that the Commission voted in favor of this refinement to the County's Critical Area Program. The effect of this approval is a re-designation from Limited Development Area to Intensely Developed Area for Ginger Cove's property located at 4000 River Crescent Drive, Annapolis, MD 21401.

As with any construction, additional site development approvals are required. However, with this property re-designation in hand, Ginger Cove is now able to initiate the work necessary to develop its site development concept into an actionable plan.
