

### Updates

Ginger Cove is pleased to report that the Anne Arundel County Council approved Bill 43-16 at its public meeting on June 6, 2016. The purpose of the Bill is to grant growth allocation for 29.38 acres of Ginger Cove's property by changing its designation on the County's Critical Areas maps from Limited Development Area to Intensely Developed Area. This action is intended by the County Council to facilitate construction of a new memory care/assisted living facility as an addition to the current and associated facilities already existing on the property.

This is the first of several governmental approvals required to turn the site development concept into reality.
